Gavin Newsom has been pissing off and sucking off a lot of people as of late. First, he vetoed a bill that would require Soviet-like reeducation of White people in what is called “Critical Race Theory”. The basic idea is that White people are inherently racist and we must irradicate racism. But wouldn’t that involve White genocide? Yep, and that’s exactly what the jews want. However, the various jewish groups backing Newsom praised his veto. Why? Because the bill did not include antisemitism training, considered jews to be White and had support for BDS or Israeli criticism in it. Roselyn Swig, a billionaire heiress, wrote an op-ed decrying the bill for just this reason, urging major reforms before it should pass. Second, Newsom sign into law a bill, the first of its kind state-wide, that sets up a task force to:

> …study the impact of slavery on Black people in California and recommend to the Legislature what kind of compensation should be provided, who should receive it and what form it will take. **(NBC)**

Both these stories came out on the same day! Newsom is the enemy of White people and a friend to jews. Just remember that. But you already knew that.
